

2017

A collage of medical supplies and a paramedic in action. The top half shows a paramedic in a red uniform with 'PARAMEDIC' on the back, kneeling and attending to a person lying on the ground at night. The bottom half features a collection of medical supplies: a red first aid kit, a blue first aid kit, a red CPR kit with a mouth-to-mask device, a stethoscope, a blood pressure cuff, a box of aspirin, a box of instant cold packs, and a box of instant heat packs. The background is a light green gradient.

Dearest Valued Customer:

Thank you for your interest in PRIMACARE MEDICAL SUPPLIES. As a supplier to the first aid industry we are sure you know the importance of having a reliable source for products your customers can depend on.

The technology and challenges in the EMS field have increased tremendously over the years. At Primacare our highly professional staff has invested much time and effort, in producing the most comprehensive product line in the industry. With more than 50,000 sq. feet of inventory, we offer many choices for Emergency Medical Products.

We promise to continually provide you with excellent service, quality products and competitive pricing. Our goal is to meet all your medical needs and be a reliable source of service, information and support.

At PRIMACARE our intent is to make your job easier by providing the products necessary to effectively perform your duty in emergency care.

We know that you will join the thousands of other satisfied Primacare customers. We remain committed to provide personalized service and customer satisfaction.

Sincerely,

Joseph Templer
Sales Manager

Instant Cold and Hot Pack

Our PrimaCare Instant cold pack is a convenient direct replacement for crushed ice. It contains ammonium nitrate and water. You must squeeze it to activate it and shake packet to mix contents. This product does not need to be refrigerated and is for one time use. PrimaCare's cold pack comes with a non-woven cover, so that there is no direct contact of cold pack to the skin.

- Consist of two bags, one with water the other with ammonium nitrate
- Once package is activated the ammonium nitrate dissolves in the water lowering the packs temperature
- Used for first aid/ sports injuries
- Convenient direct replacement for crushed ice
- Relieves aches and pains
- Do not refrigerate before activation, may result in frostbite
- One time use only
